

Fision U wins “Best On-Campus Vendor/Operator Solution” at the 8th annual Interface Student Housing Conference in Austin, TX

Bala Cynwyd, PA. April 22, 2016 — At the Annual Student Housing Business Innovator Awards, Student Housing Business magazine presented awards for excellence in student housing development. Winners in a variety of categories were chosen from more than 100 entries by a panel of 85 industry experts.

Hotwire Communications’ student housing division, Fision U, was honored to receive the “Best On-Campus Vendor/Operator Solution” award for their on-campus solution implemented with American Campus Communities at Prairie View A&M University.

“Launching a new wired and wireless technology solution at Prairie View A&M University was a massive project and we’d like to recognize the great deal of collaboration between our team and our partners at American Campus Communities as well as the university’s IT staff,” said Dave Schweizer, Vice President of Student Housing Technologies at Fision U.

The Fision U team successfully quadrupled the bandwidth to the property and installed an enterprise-grade wireless network that serves nearly 3,800 students residing in 50 buildings. The upgraded system now facilitates over 1,000,000 Internet translations per day!

Fision U manages an expanding portfolio of 30,000 beds in university markets across the country. Through its 100% fiber optic network, Fision U provides ultra-fast Gigabit speeds to deliver bulk Internet, Wifi and HDTV solutions.
